

equivalent write down, or “Loss” in the most recent State or Federal examination report;

(3) Any deposit of the insured branch in a bank unless the bank has executed a valid waiver of offset agreement;

(4) Any asset not supported by sufficient credit information to allow a review of the asset’s credit quality, as determined at the most recent State or Federal examination, as follows:

(i) Whether an asset has sufficient credit information will be a function of the size of the borrower and the location within the foreign bank of the responsibility for authorizing and monitoring extensions of credit to the borrower. For large, well known companies, when credit responsibility is located in an office of the foreign bank outside the insured branch, the insured branch must have adequate documentation to show that the asset is of good quality and is being supervised adequately by the foreign bank. In such cases, copies of periodic memoranda that include an analysis of the borrower’s recent financial statements and a report on recent developments in the borrower’s operations and borrowing relationships with the foreign bank generally would constitute sufficient information. For other borrowers, periodic memoranda must be supplemented by information such as copies of recent financial statements, recent correspondence concerning the borrower’s financial condition and repayment history, credit terms and collateral, data on any guarantors, and where necessary, the status of any corrective measures being employed;

(ii) Subsequent to the determination that an asset lacks sufficient credit information, an insured branch may not include the amount of that asset among eligible assets until the FDIC determines that sufficient documentation exists. Such a determination may be made either at the next Federal examination, or upon request of the insured branch, by the appropriate regional director;

(5) Any asset not in the insured branch’s actual possession unless the insured branch holds title to such asset and the insured branch maintains records sufficient to enable independent verification of the insured

branch’s ownership of the asset, as determined at the most recent State or Federal examination;

(6) Any intangible asset;

(7) Any other asset not considered bankable by the FDIC.

(c) A foreign bank which has more than one insured branch in a state may treat all of its insured branches in the same state as one entity for purposes of compliance with paragraph (a) of this section and shall designate one insured branch to be responsible for maintaining the records of the insured branches’ compliance with this section.

(d) The average book value of the insured branch’s liabilities for a quarter shall be, at the insured branch’s option, either an average of the balances as of the close of business for each day of the quarter or an average of the balances as of the close of business on each Wednesday during the quarter. Quarters end on March 31, June 30, September 30, and December 31 of any given year. For days on which the insured branch is closed, balances from the previous business day are to be used. Calculations of the average book value of the insured branch’s liabilities for a quarter shall be retained by the insured branch until the next Federal examination.

§ 347.212 Deductions from the assessment base.

An insured branch may deduct from its assessment base deposits in the insured branch to the credit of the foreign bank or any office, branch or agency of and any wholly owned subsidiary of the foreign bank.

§ 347.213 FDIC approval to conduct activities not permissible for Federal branches.

(a) *Scope.* A foreign bank operating an insured state branch which desires to engage in or continue to engage in any type of activity that is not permissible for a Federal branch, pursuant to the National Bank Act (12 U.S.C. 21 *et seq.*) or any other Federal statute, regulation, official bulletin or circular, written order or interpretation, or decision of a court of competent jurisdiction (each an impermissible activity),
